#### RECOGNIZING THE PAPER MARKET

● Mr. VITTER. Mr. President, Louisianians have a long history of embracing life and celebrating when the occasion calls for it. In particular, the city of Monroe is home to a paper and party supply store that provides all celebratory essentials. As the holiday season quickly approaches, I would like to recognize The Paper Market of Monroe, LA, as this week's Small Business of the Week.

Amy Robinson has always been a celebration enthusiast, and from Mardi Gras to Christmas to crawfish season, she has found several reasons to celebrate every season in Louisiana. In 2010, Amy had an off-the-wall idea to track down the owner of her favorite local paper product shop to see if they would be interested in selling their profitable small business. After months of negotiating, Amy and her husband, Brian, became the proud owners of the popular local stationery store and set out with a new vision to create within the space a place in which members of the Monroe and West Monroe communities could come to plan their celebrations.

Today, The Paper Market embodies Amy's personal motto to "celebrate everything" and is regionally renowned for providing specialized party supplies for all occasions, in addition to carrying a wide variety of home decor and gift lines with a Louisiana flair. Amy has also employed an in-house graphic designer to provide a one-stop-shop for her customers' celebration-planning needs.

As we continue to celebrate National Women's Small Business Month, it is my honor to recognize Amy Robinson, her entrepreneurial efforts, and The Paper Market of Monroe for being selected as Small Business of the Week. Congratulations, Amy, Brian, and the entire Paper Market team. Thank you for your commitment to serving your community, and I look forward to seeing your continued growth and success.●

#### RECOGNIZING SOPHI P CUPCAKES

● Mr. VITTER. Mr. President, Louisiana is known for many great things, not least of which is our unique and delicious cuisine. Whether it is a crawfish boil in the spring or the first fall gumbo pot, our family traditions often center around food. In that spirit, I would like to recognize Sophi P Cupcakes LLC in Lafayette, LA, for sharing a unique take on a traditional dessert in the Acadiana region.

Jennifer Melancon studied the art of pastry for several years before she and her husband, Dustin, decided to open Lafayette's first cupcake-centered bakery, otherwise known as a cupcakery. Combining Jennifer's skill and Dustin's

business sense, the Lafayette natives launched Sophi P Cupcakes in 2010. Almost immediately, Sophi P Cupcakes became a community favorite and later that year was recognized as the 2010 "Best New Business" by the Better Business Bureau of Acadiana. One year later, Jennifer and Dustin were awarded the 2011 "Rising Young Business Leader" by the Junior Achievement of Acadiana. Over the next few years, Sophi P Cupcakes continued to grow and succeed and in 2015 expanded their operation to launch multiple Sophi P Express coolers across the campus of the couple's alma mater, the University of Louisiana at Lafayette. Jennifer and Dustin are now focused on the future of Sophi P's and have their eyes set on expanding their business across Louisiana and the Nation.

While hard work and thoughtful planning have played a major role in their success, there is no doubt that Jennifer's leadership as the head pastry chef and owner has helped cement Sophi P's as a local favorite in Acadiana. Catchy cupcake names such as "the Dude" and "Chocolate Thunder" match the "sophisticated to punk" theme that is the inspiration behind the cupcakery. With treats made daily with fresh ingredients and a mission revolving around customer service and appreciation, it is no wonder that Sophi P's is a great success as part of the cupcake craze sweeping the Nation.

During the month of October, when we celebrate women-owned small businesses, I want to especially congratulate Jennifer for her role in making Sophi P Cupcakes the resounding success that it is today. Her exceptional culinary skill and artistic mind has helped Sophi P Cupcakes become one of Acadiana's favorite places for sweet treats. Her passion is an example to all aspiring female entrepreneurs, and I applaud her for tapping into her talent and embarking on the endeavor of owning a small business with her husband.

Congratulations to Jennifer, Dustin, and the entire team at Sophi P Cupcakes on being named Small Business of the Week. I look forward to your continued confectionary success.●

#### PETITIONS AND MEMORIALS

The following petitions and memorials were laid before the Senate and

were referred or ordered to lie on the table as indicated:

POM-216. A concurrent memorial adopted by the Legislature of the State of Arizona urging the United States Congress to enact the Resilient Federal Forests Act; to the Committee on Agriculture, Nutrition, and Forestry.

#### SENATE CONCURRENT MEMORIAL 1011

Whereas, national forest lands are the largest single source of water in the United States and, in some regions of the west, contribute nearly 50% of the overall water supply; and

Whereas, the unhealthy state of these forests has resulted in catastrophic wildfires that are threatening the reliability, volume and quality of water for tens of millions of Americans; and

Whereas, severe drought and record-breaking wildfire seasons have highlighted the need for the implementation of a process that would require and provide for the United States Forest Service to accelerate restoration work in our national forests, which would protect critical headwaters and make forest lands more resilient against prolonged dry conditions, insect infestation and fire; and

Whereas, failure to take quick action will result in a continued increase in the frequency and intensity of destructive wildfires, impacting the nation's water resources for decades at considerable cost to stakeholders and United States taxpayers; and

Whereas, the customs, cultures and economic well-being of our local communities, as well as important historic and cultural aspects of our local heritage, are being ignored, which adversely affects the lives and jobs of the people of the United States and devastates local and state economies; and

Whereas, on June 4, 2015, Representative Bruce Westerman introduced H.R. 2647, the Resilient Federal Forests Act. The bill passed in the House on July 9, 2015 and was transmitted to the Senate, where it died in committee; and

Whereas, the Resilient Federal Forests Act expedites and improves forest management activities through a collaborative process, resulting in the protection of water resources.

Wherefore your memorialist, the Senate of the State of Arizona, the House of Representative concurring, prays:

1. That the United States Congress enact the Resilient Federal Forests Act.

2. That the Secretary of State of the State of Arizona transmit copies of this Memorial to the President of the United States Senate, the Speaker of the United States House of Representatives and each Member of Congress from the State of Arizona.

POM-217. A joint resolution adopted by the Legislature of the State of California relative to small unmanned aircraft systems; to the Committee on Commerce, Science, and Transportation.

#### SENATE JOINT RESOLUTION NO. 18

Whereas, In the western United States, water is a vital and scarce resource, the availability of which has and continues to circumscribe growth, development, economic well-being, and environmental quality of life; and

Whereas, The wise use, conservation, development, and management of our water resources is critical to maintaining human life, health, safety, and property; and

Whereas, The western United States is currently experiencing serious drought conditions that are predicted to worsen; and

Whereas, Agricultural irrigation uses a significant amount of water, making the agri-

cultural sector one of the most important sectors to examine when considering water conservation; and

Whereas, Even modest improvements in agricultural water use can result in significant amounts of water not being depleted regionwide, which can then be utilized elsewhere; and

Whereas, Precision agricultural management studies have shown that farmers can reduce the amount of water, fertilizer, and pesticide needed by their fields by utilizing high-resolution, high-quality remotely sensed imagery to guide their application efforts of water, fertilizer, and pesticide; and

Whereas, Small unmanned aircraft systems (sUAS) have the capability to quickly provide expansive, high-resolution, and high-quality remotely sensed imagery that can measure specific bands in the solar spectrum, such as the thermal infrared band, which allows farmers to better understand and manage their water use; and

Whereas, The Federal Aviation Administration (FAA) is currently in the process adopting rules for the usage of sUAS in agricultural management; and

Whereas, Flights of sUAS, for the purposes of precision agricultural management, could occur safely at low altitudes, in rural areas removed from other air traffic and human populations, and in accordance with the FAA's proposed guidelines; and

Whereas, Small unmanned aircraft systems have been used in precision agricultural management in Japan for a decade, successfully optimizing and monitoring the management of 2.5 million acres of farmland, 40 percent of which are rice fields, without any significant reported incidents; and

Whereas, Several University of California campuses and the California State University system are developing precision agriculture applications with sUAS to help save water and improve crop and environmental monitoring. For example, the Mechatronics Embedded Systems and Automation Lab at the University of California, Merced, has developed numerous innovations for precision agricultural management with sUAS; and

Whereas, Flights of sUAS also have the capacity for detecting invasive plant species that deplete high amounts of water such as yellow star thistle, arundo, tamarisk, and cheatgrass, which serve no agricultural purpose and removal of which would help in water conservation efforts; and

Whereas, The use of sUAS is an emerging technology and has great promise for the development of models that forecast and predict economic impacts of droughts and meteorological phenomena: Now, therefore, be it

*Resolved by the Senate and the Assembly of the State of California, jointly,* That, due to the severity of the drought gripping the western United States, the California Legislature respectfully requests the President of the United States and the United States Secretary of Transportation, more specifically the FAA, to allow for the operation of sUAS by farmers and rangeland managers pursuant to emergency rules adopted by the administration before the FAA rules for sUAS are finalized. The emergency rules should be based on the proposed FAA rules for sUAS that were released in February 2015 and that incorporate all of the following:

(a) That the emergency FAA rules for sUAS operation be applicable to counties located in the western portion of the United States that are projected to be in drought during the current growing season, as defined by the National Oceanic and Atmospheric Association's Seasonal Drought Outlook.

(b) That the emergency FAA rules for sUAS operation allow Farmers to contract with sUAS flight service providers to execute
